

In February of 2007, Karl started Fannie Battle at 21 months of age.

Karl is the second youngest of 7 children. Karl displayed typical toddler behavior but was painfully shy. As Karl has moved from the Infant/Toddler Program to the Preschool Program he has begun to break out of his shell. His teachers have expressed recent excitement because Karl has begun to identify letters. He looks at the pictures of the letters and then finds them located on the Chicka Chicka Boom Boom Computer Program. Computers donated by Read to Succeed and other generous donors.

Karl is now almost 3 1/2 and because of Read to Succeed, all of its components, and a caring and dedicated staff, he is growing into an eager and excited learner and developing pre-reading skills every day to help prepare for his success in school and life.

**We are so proud of Karl ~
THANK YOU United Way!**
